

Should my child attend school in Alert Level 3?

Under Level 3 all families are advised by the Prime Minister to keep their children at home, unless you have no other means of someone being able to supervise them.

We hope this flowchart will assist you in determining if your child requires supervision at Alert Level 3.

- Most of our students will stay home as that is the safest place for them.
- If you have to return to your workplace outside of the home, with no suitable supervision at home, and you are unable to grow your bubble to include adequate supervision, then you are to register your child to attend school, for supervision under level 3.
- You must register your child to attend school under Alert Level 3, as there are very strict rules around the size of bubbles.
- Limited supervision will be available for these students to complete their distance learning.
- All teachers will continue to run the distance learning programme for all students in their class.
- Teachers will continue to work from home and will not be on site.
- The Tennyson Centre remains closed under Level 3.
